Full Stack Development
@ Elysium Academy Madurai

PROFILE

Aspiring Full Stack Developer with a solid foundation in web development technologies. Proficient in HTML, CSS, JavaScript, and eager to learn and apply frameworks like React for front-end development and Node.js, Express.js for back-end. Graduated in 2023 with a degree in B.E EEE, showcasing a strong commitment to learning and staying updated on industry trends.

WORK EXPERIENCE

Athena Solutions March 2025 - September 2025

Frontend Developer (Intern)

- Contributed to the frontend team by developing features using (React) TypeScript, including implementing checklist forms to enhance the project's functionality, user interface, and user experience.
- Collaborated with backend developers working in Python and integrated MySQL database connectivity to ensure seamless data flow and functionality.
- Assisted in building a responsive and efficient application, working closely with cross-functional teams to meet project goals.

PROJECTS

EHS Management System

- Provided support for EHS (Environment, Health, and Safety) management software operations.
- Worked on modules including Training, Safety Observation, Incident Management, Inspections, and Overview dashboards.
- Managed Manpower, Worker records, and Permit-to-Work processes.
- Utilized React.js for frontend development and Python Django for backend services.
- Handled PostgreSQL database operations for data storage and retrieval.

Billing Software

- Provided technical support and assistance for a billing software system built with React.js, Node.js, and MongoDB.
- Managed modules including Invoice, Purchase Order, Tender Invoice, and Proforma Invoice.
- Collaborated with development teams to ensure seamless integration and functionality of billing modules.
